We empower our learners, faculty, and staff to exceed the expectations of society through academic excellence, community enrichment and service to the society.

## VISION

Create skillful academic leaders for the world to make human life convenient and sustainable.

# MESSAGE FROM SECRETARY

**DR. SEEMA TIWARI**

(Ph.D., M.Ed., B.Ed., M.Phil.,  
MA, President's Awarded)

Education is the basis for the development of society. Therefore we forayed into education for society from

the last two decades. Over two decades of experience of teaching has learned that the progress of society is possible only if society will become well educated.

The entire purpose of education is not to restrict itself to imparting bookish knowledge only but inculcate humanitarian values like wisdom, compassion, courage, humility, integrity, and reliability in a student. We believe in holistic education for the budding citizens of the country, encompassing -academic, co-curricular activities, sports and life skills learning for developing humanity for life. We endeavor to strike a balance between the state of art infrastructure and an internationally acceptable education.

At "Oxford International College" and "Indore International College" we expanded education that is based on conscience and we remove the strain of young minds that will enhance self-confidence, motivation and ready to take up challenges for the life.

We are confident that college will provide the best platform for the young budding learners for development of themselves. We welcome your active interest and involvement in the progress and activities of young learners. We look forward to your continuous support for developing your skills for your future.

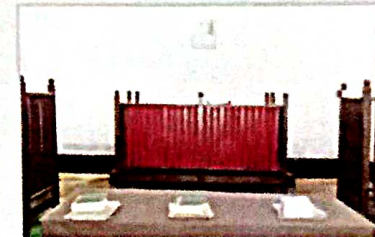

**ARISE! AWAKE!  
AND STOP NOT UNTIL  
THE GOAL IS REACHED.**
